I. Before converting MS Word file to PDF	
Anti-virus scanning	✧ Scan the original thesis/dissertation document for viruses before proceeding to page layout and file conversion.
Confirm your thesis/dissertation file	✧ Convert the entire thesis/dissertation to one file. ✧ Make sure that the electronic file contains all the sections of your thesis/dissertation, including title page, acknowledgement or foreword, Chinese and English Abstract, charts and index, the paper, reference, and appendix. Refer to the original thesis/dissertation document to double check content and page order. ✧ **Add the watermark in every page of the thesis/dissertation except the cover page.**
Special treatments	✧ If a defined program is used to create the characters, copy C: \ windows \ eudc.euf and eudc.tte to the computer that is going to convert the files. The file can be converted after pasting eudc.euf and eudc.tte.

II. Page layout after combining files

Page layout steps

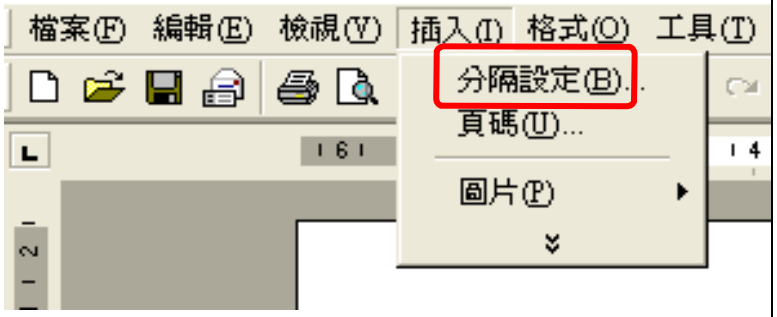

After the files are combined, adjust the page order to match with the page order in the paper thesis. Follow the steps below if you have problems on formatting page layout:

1. Insert page break at the last line of the last page.

(Example: If the main text begins on Page 11, use Roman numerals to number the first ten pages. Insert page break on the last line of page ten to change the page number format to Arabic numerals.

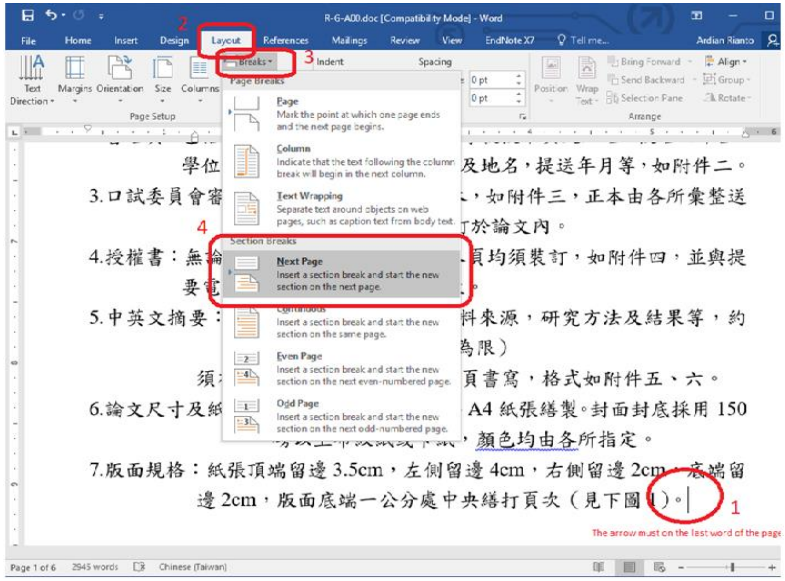

MS Word 1997-2003

(1) Select toolbar insert →Break

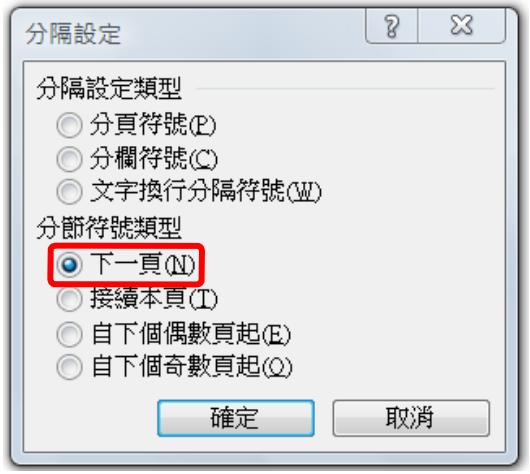

MS Word 2007-2010

(1) Select toolbar Layout → Breaks →Next Page

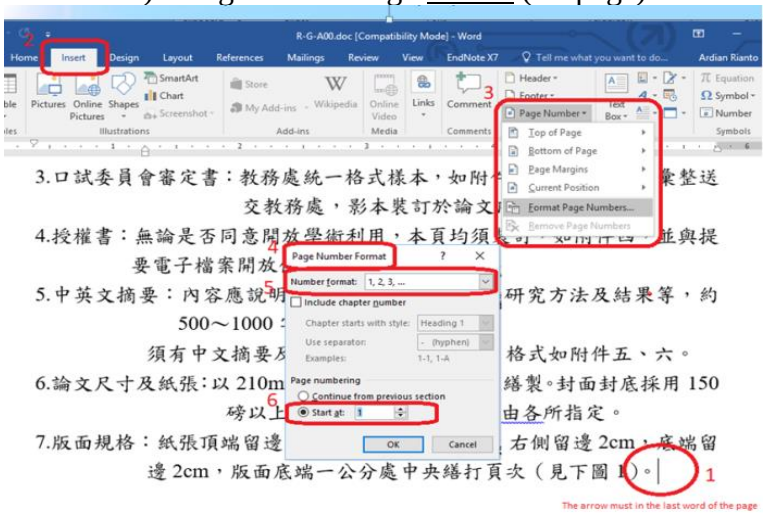

(2) Select sub-section symbol type → start from the next page

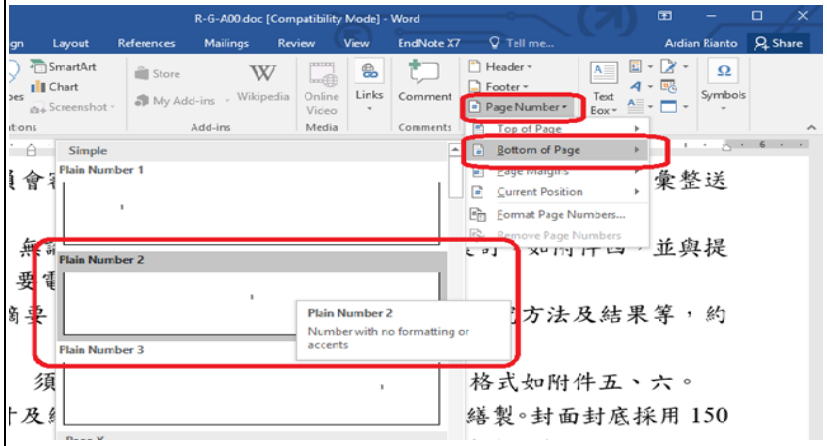

(3) At this point the article had been set to different sections, Click Insert → Page → Format

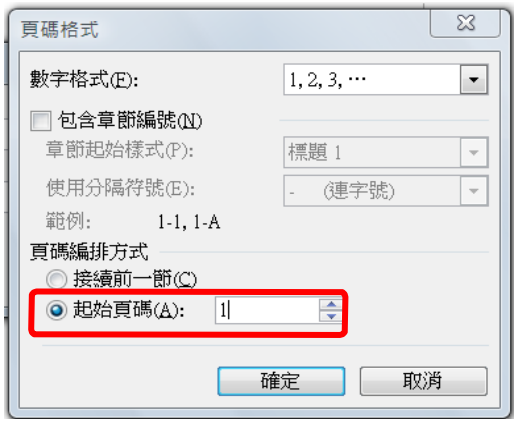

(2) Insert → Page Number →Format Page Numbers →Page Number Format→ Number Format (set Roman or Arabic numerals)→Page Numbering : start at (set page)→OK

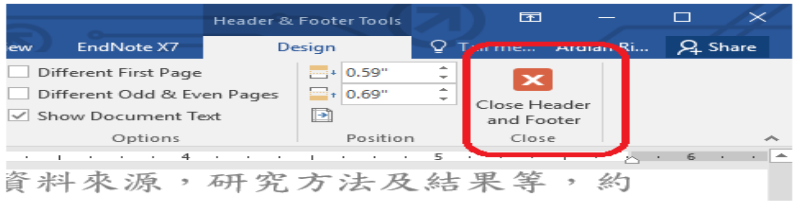

(3)Insert →Page Number →Bottom of Page→ Simple→ Plain Number2→Close Header and Footer Close

(4) Select “Format” to choose where the page number will be shown, then select “page numbering” to edit your e-thesis’ page numbers.

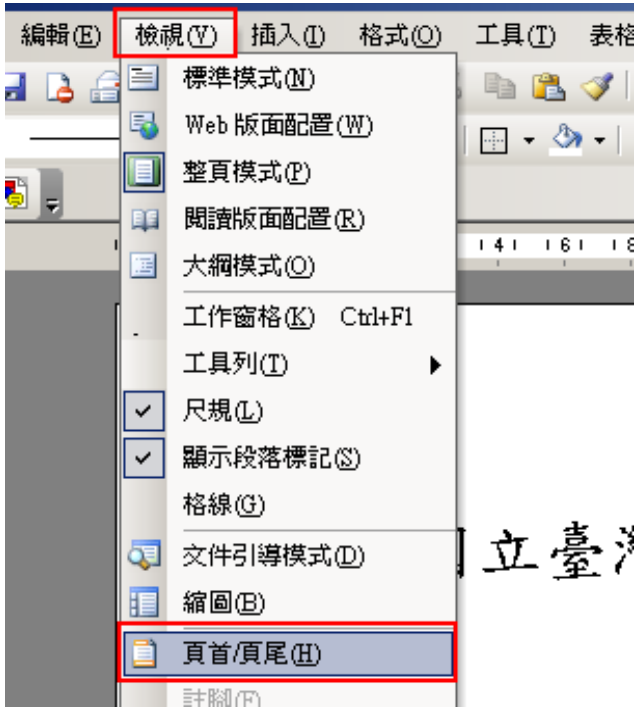

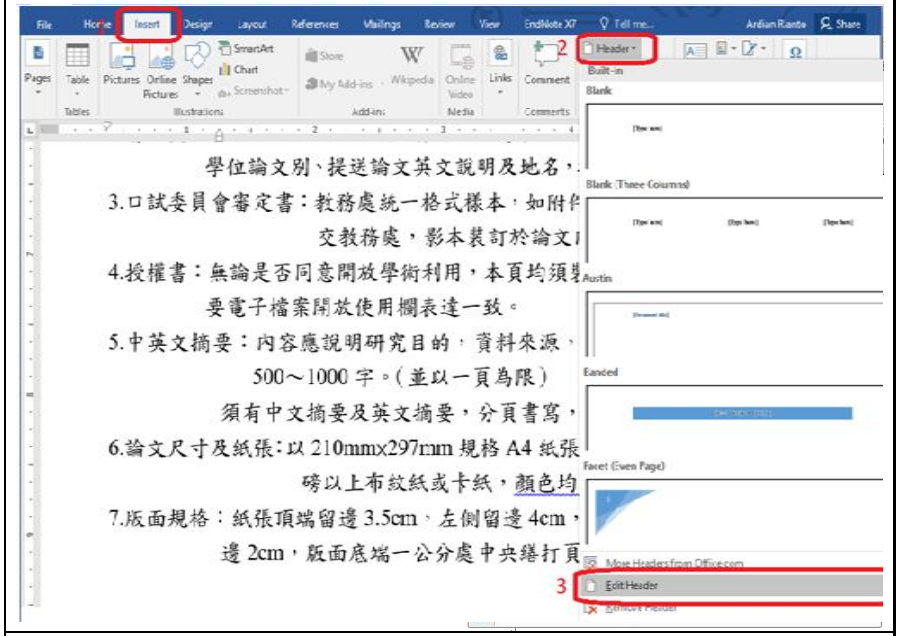

(4) Design→Close Header and Footer Close

(1) Reminder: The e-thesis page code should match the paper thesis page code!

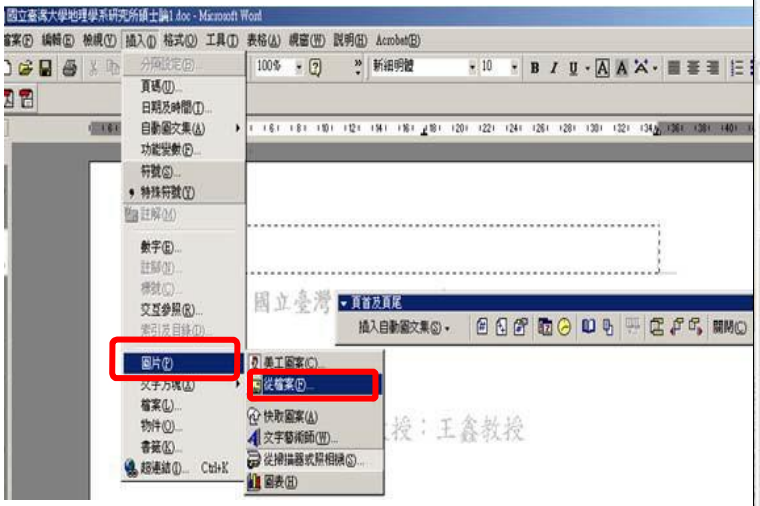

(2) If the paper is required to be divided into several paragraphs, the above-mentioned steps can be repeated to edit page numbering.

III. File conversion process	
Add the watermark	✧ Download the YZU watermark and insert it to the Word file (or PDF file after converting original file). ✧ Instructions on how to insert the YZU watermark to the original Word file： ✧ **Download the "YZU watermark file" from the pathway:** 《Yuan Ze University Library e- Theses & Dissertation》→《Submission Instructions》→《Download YZU Watermark》 【In order to maintain the consistency of quality paper, please do not change the size of the watermark!】

	MS Word 1997-2003	MS Word 2007-2010
	(1) On the title page：Click View → Header/Footer (Ensure that watermark appears at the center of each page) 	(1) Insert→Header→EditHeader 

(2) Insert the watermark image: Insert → Picture → From the file

Note：The layout will be a bit messy once the watermark is inserted. Do not worry, simply adjust with the following steps:

(2) Insert the watermark image: Insert →Picture →From the file→Choose YZU watermark→Insert

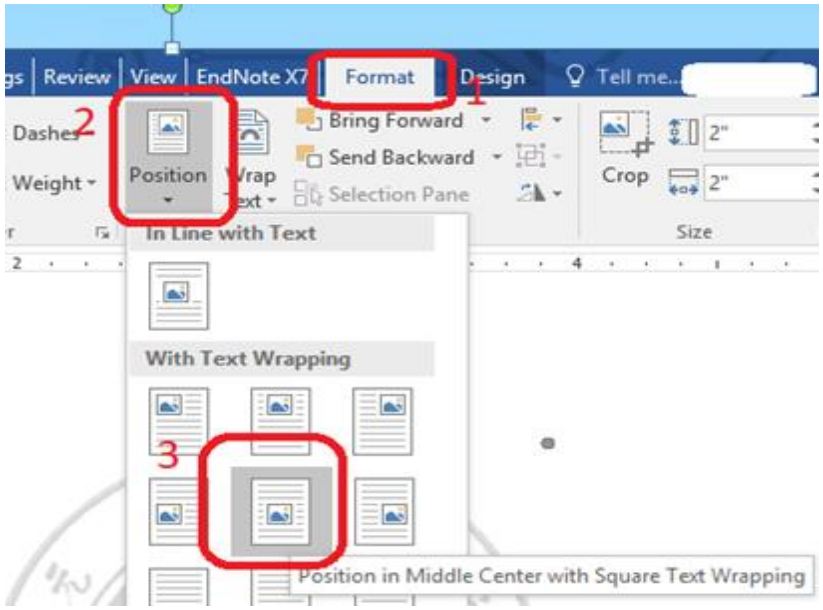

Note：The layout will be a bit messy once the watermark is inserted. Do not worry, simply adjust with the following steps:

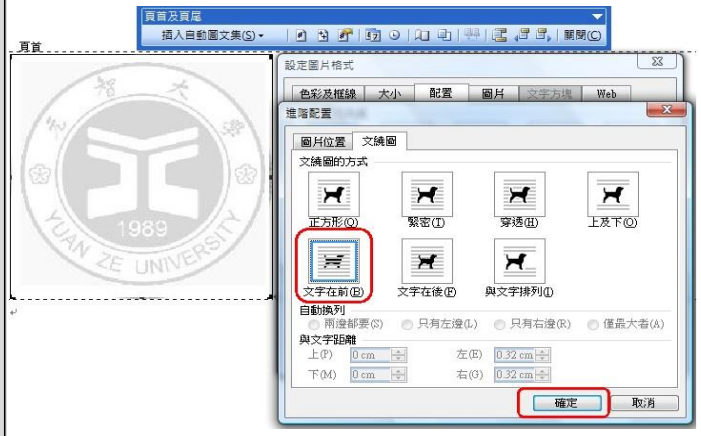

(3) Double-click on the picture and a picture format dialog will appear: Switch labels to Configuration →click on Advanced

(3) Format→Position→With Text Wrapping→Center of the page

(4)Switch labels to Text around the pictures and click on Text in front

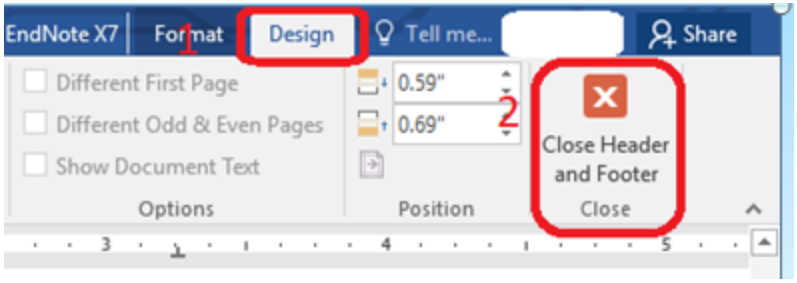

(4)Format →Wrap Text → Behide Text

(5)Switch label to Image Position. On Horizontal Alignment, click on Center of the page; on Vertical Alignment click on Center of the page →Press OK

(5)Ensure the watermark is at the center of the page, click on Design→Close Header and Footer Close

(6) Click on **Close** Header and Footer. The watermark image will appear at the center of each page.

	MS Word 1997-2003	MS Word 2007-2010
Delete watermark of cover page	(1) View→Header/Footer  (2) On the Header/Footer Toolbar, click on Page Setup  	(1) Insert→Header→Edit Header 

(3) Choose Page Layout→Header/Footer→Check the Different First Page box→Press OK

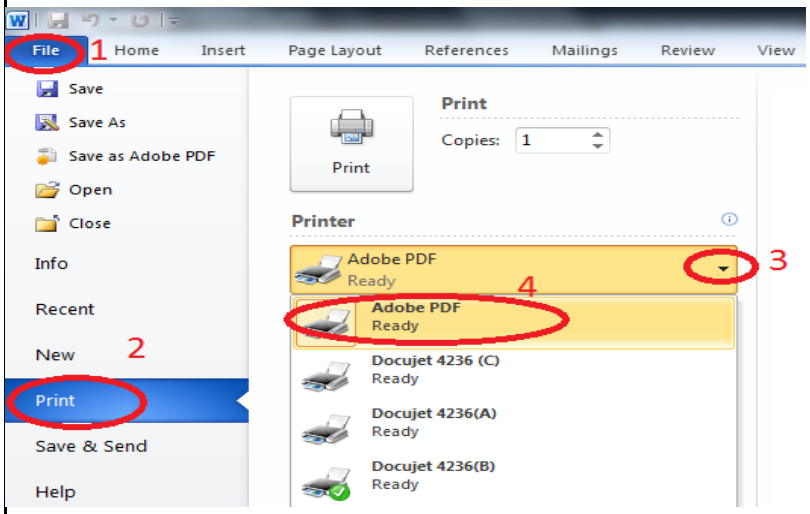

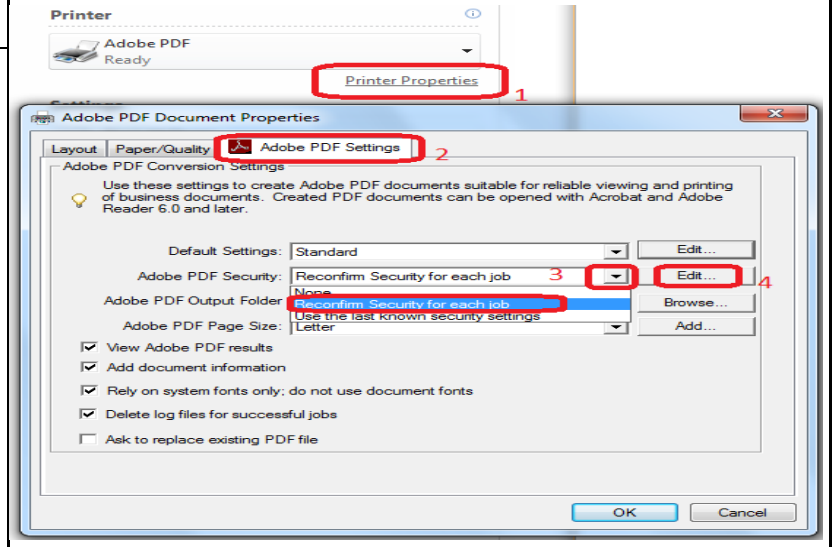

(4) The watermark will appear in every page, except in the Cover page.
(5) Save File
(6) After the watermark is added, you can start to convert files.

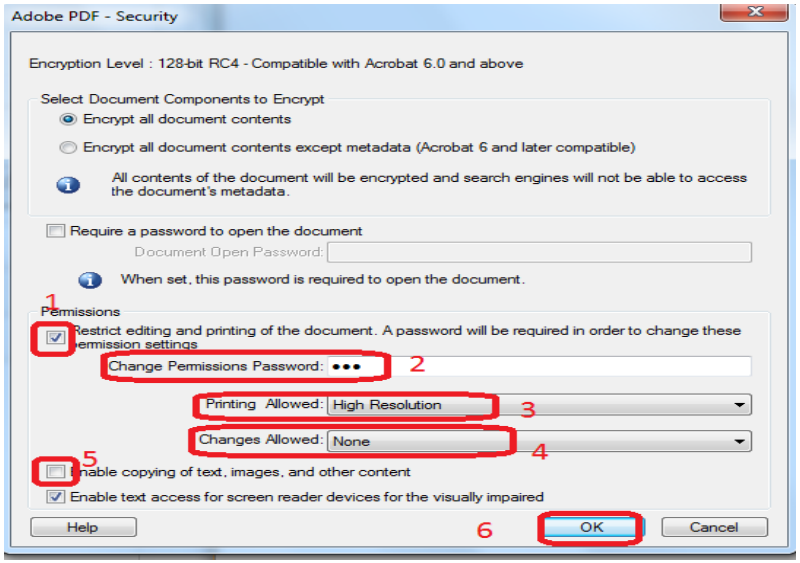

(2)Layout→Page Setup →Page Setup→Headers and Footers→ Check the Different First Page →Press OK

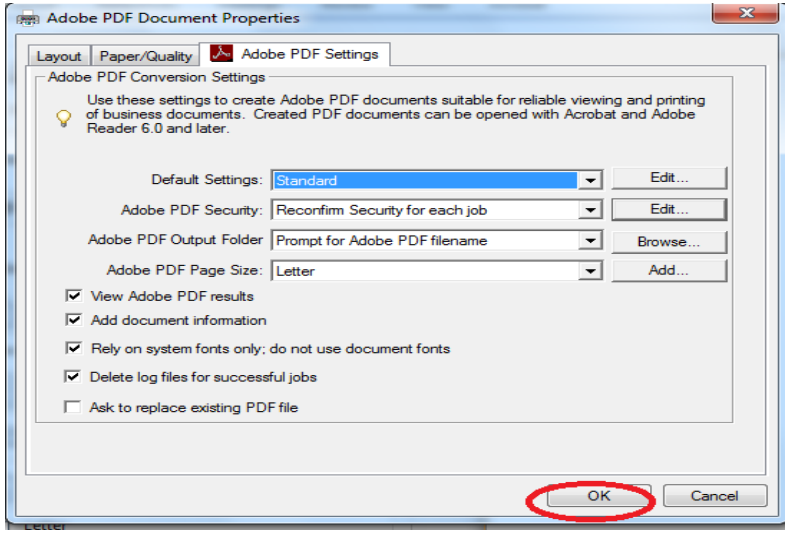

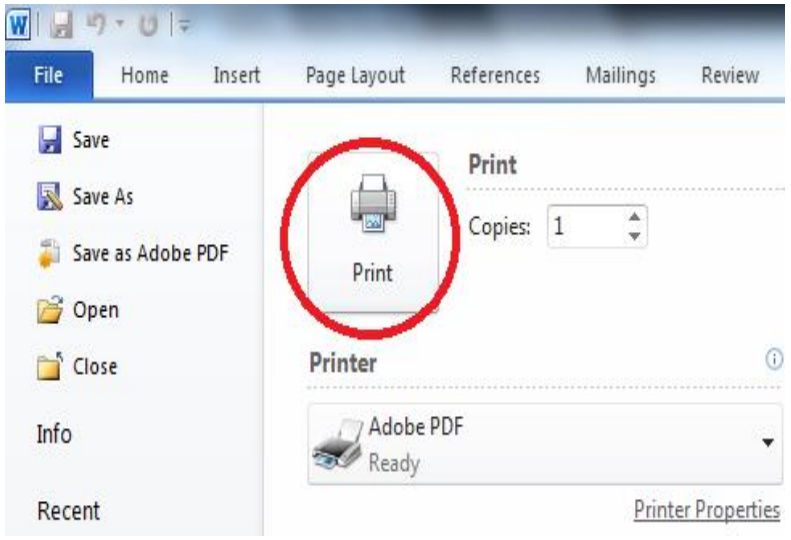

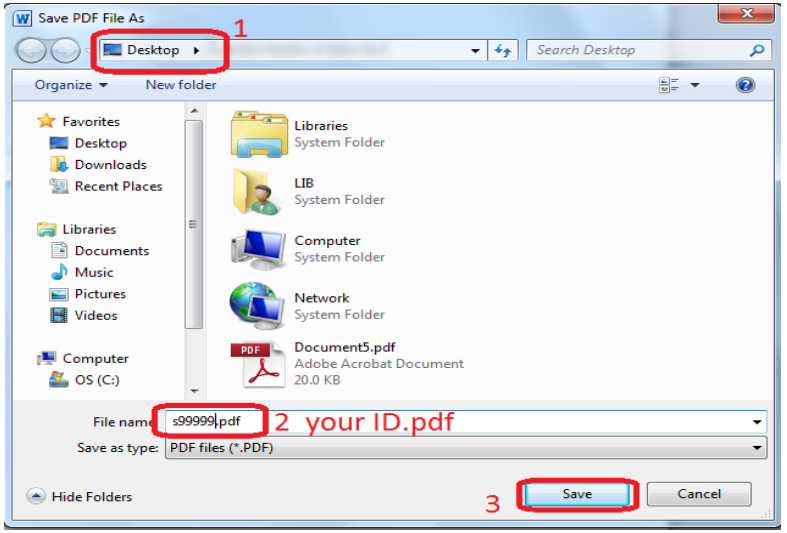

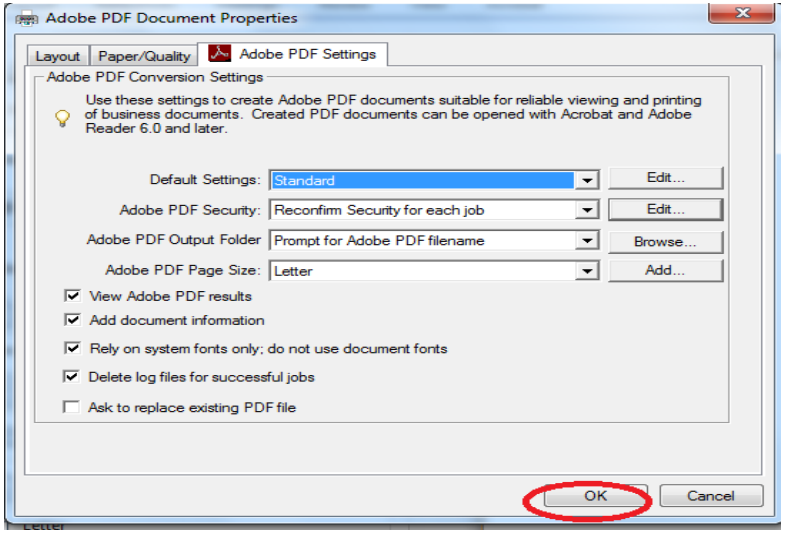

(3) The watermark will appear in every page, except in the Cover page.
(4) Save File
(5) After the watermark is added, you can start to convert files.

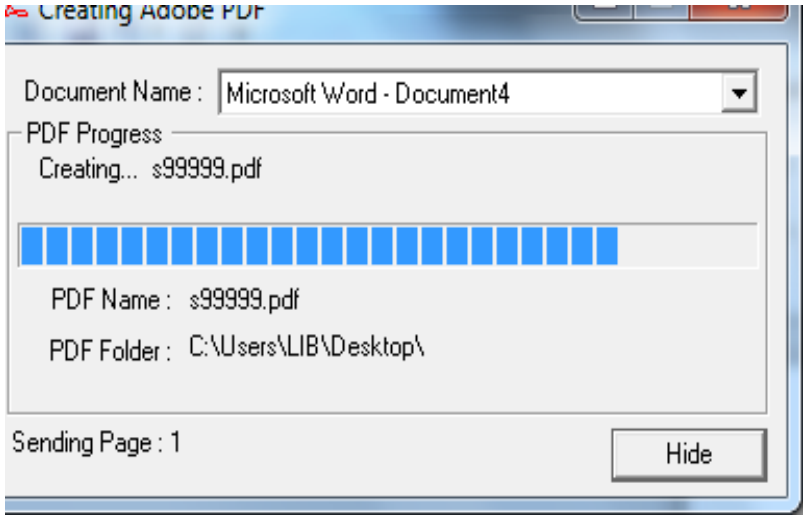

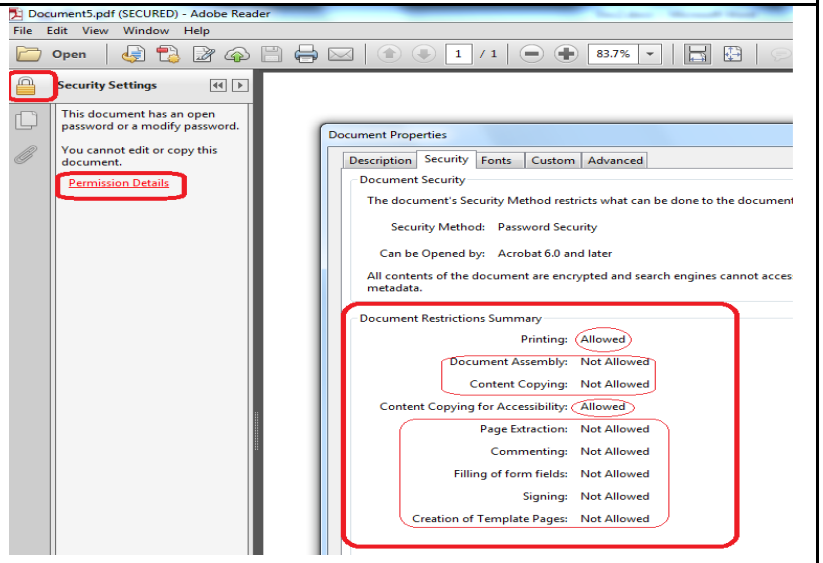

E-thesis file conversion and enhancing thesis protection measures	**1. Do not transfer files using the command “Convert to Adobe PDF" or “Save As” in MS Word to avoid errors while loading PDF files to the database.** **2. Use Acrobat software to convert file to PDF：** You can use Acrobat software installed in the four computers located at the left side of the circulation desk and K areas computer at Digital Universe at the YZU library.
Prevent copying / pasting to PDF file after conversion	➢ If you use the most common MS Word version to write your thesis, you can use Adobe Acrobat to convert MS Word files to PDF, and add prevention of copying/pasting to your PDF files. ➢ Follow the steps below to convert MS word document to PDF with Acrobat 11.0 edition.
Acrobat 11.0	1. Open your e-thesis MS Word file in a computer with Acrobat 11.0. 2. MS Word 2010 edition instruction is as below:

Acrobat 11.0	(1)From the top toolbar, choose File→click on Print (2)Verify that the printer name is set to **Adobe PDF**	
	Click on Printer Properties →switch to Adobe PDF settings→Select Adobe PDF Security menu: select reconfirm the protection of all job, and click Edit.	

	Click on Edit→Adobe PDF - Security window will appear: Do not check **Require a password** to open the document. V Please check Restrict editing and printing of the document, and set up your personal password. In the **Printing Allowed** menu, select **High Resolution.** In the **Changes Allowed** menu, select **None.** Do not check **Enable copying of text, images and other content**.	
	Confirm Permissions Password : Repeat set up your personal password.	

	Please click OK.	
	Please click **Print**	

	Save the file to Desktop, then set your ID.pdf .	
	Please click OK again.	

	Creating Adobe PDF , Please wait a moment.	
	You can check **Security Settings→Permission Details**→window will appear as bellows.	

File Naming	✘ Do not use 'Chinese' file names, file names cannot contain full-text spaces, or some special characters such as: ~ . * / \ ( ) + [ ] {}, otherwise errors will appear when loading to the database. ✘ Save PDF files on the desktop, to ensure whether PDF files can be opened, if it can be opened, then the conversion procedure is completed.
Inspection items before uploading files	(1) After the file has been successfully converted, open and examine if the PDF file matches with the printed copy of your paper. Below are items for inspection to check before uploading the file: (i) If adding more PDF protection is needed (ii) When adding more protection, do not check the options Use password to open PDF and No printing (iii) If the PDF file can be opened normally (iv) Add the watermark (v) If the entire thesis is converted into PDF file (vi) Check if the total number of pages and the starting and ending page number in each chapter of the PDF file match with the paper thesis (vii) If the font of the PDF file matches with the paper thesis font (2) If you have any problems, please contact us： Tel:886(3)463-8800#2322 E-mail：etds@saturn.yzu.edu.tw
